

Tri Tool UK, January 1st 2021 Announcement:

We are pleased to announce that TRI TOOL has partnered with B.L. GILBERT (BARROW), LTD in a strategic partnership to better support your technical needs. “From PurposeBuilt machines and equipment rental programs, to MissionBuilt™ solutions and field services, TRI TOOL goes beyond simple innovation to solve your industry’s toughest challenges.”

B.L. GILBERT’s have consistently upheld our stringent requirements for decades. As a result, we have deemed them an Authorized Partner for Tri Tool equipment in the UK – effective for FY2021.

While TRI TOOL equipment is available globally through many channels of distribution, our Authorized Partners must continually demonstrate the ability to:

- Deliver World-Class Training Curriculum (both virtually and in-person)
- Provide One-Stop Support for our Industry-Leading Extended Warranty Programs
- Offer Direct Access to On-Site Technical support from TRI TOOL personnel (often same day)

Tri Tool understands the unique challenges that our Customers face, and we strive to rise to each and every challenge, every day. We know that our Global Preferred Suppliers are able to do the same.

On that note we look forward to collaborating with B.L. GILBERT’s and your end-users to deliver outstanding and innovative results – for years to come.

Best regards,

Alex R. Muhs

Head of Operations, Tri Tool Technologies
